Window Auth

دا لو انت بتسجل ب Window Auth

```
"ConnectionStrings": {  
  "DefaultConnection": "Server=MyPC\\SQLEXPRESS;Initial  
Catalog=HealthHub;TrustServerCertificate=true;Trusted_Connection=true;MultipleActiveResultSets=true"
```

Connect to Server

SQL Server

Server type: Database Engine

Server name: MYPC\\SQLEXPRESS

Authentication: SQL Server Authentication

Login: \_Admin

Password: \*\*\*\*\*

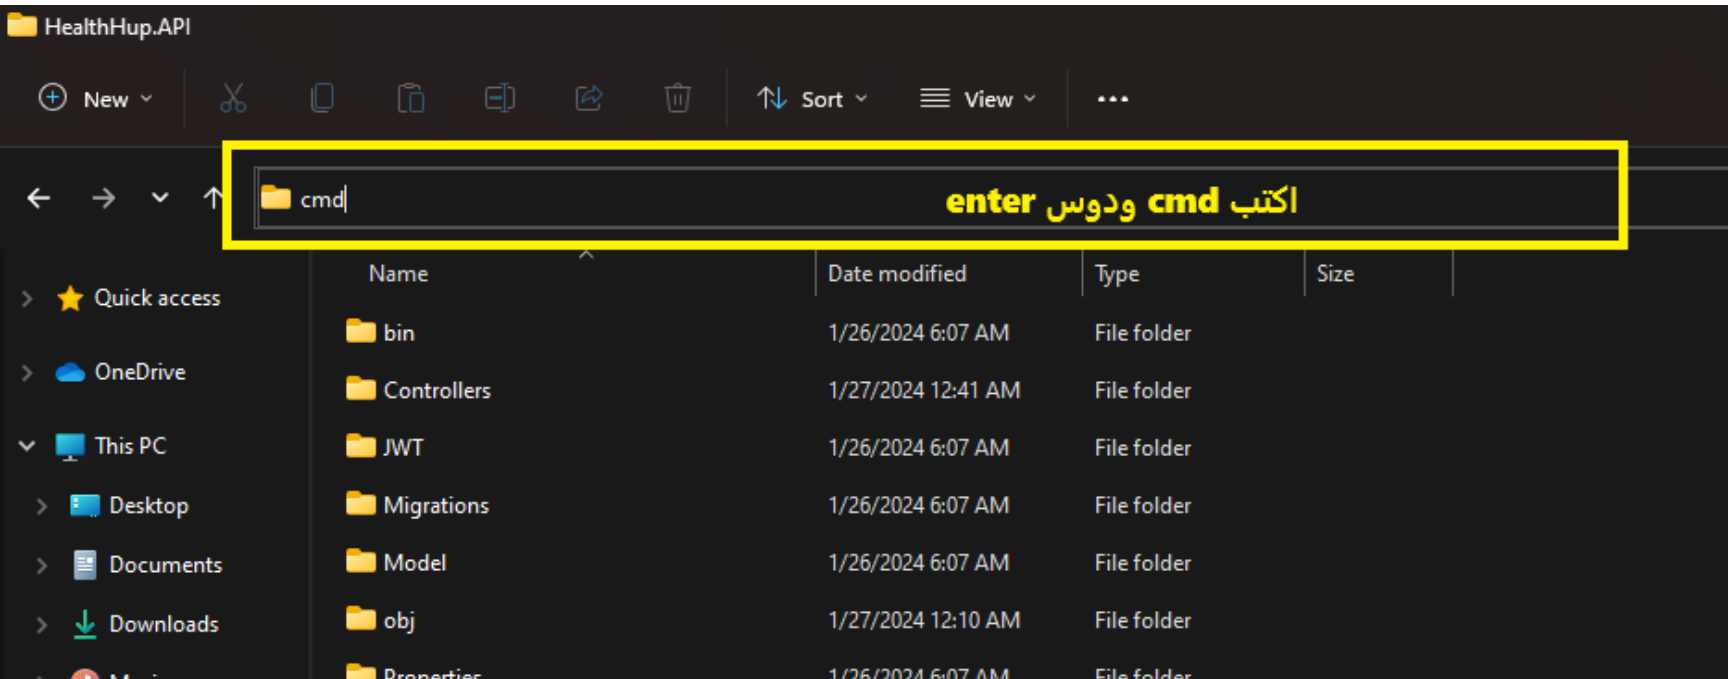

☒ Remember password

لو مش بتسجل ب ويندوز غير كلو بدا:

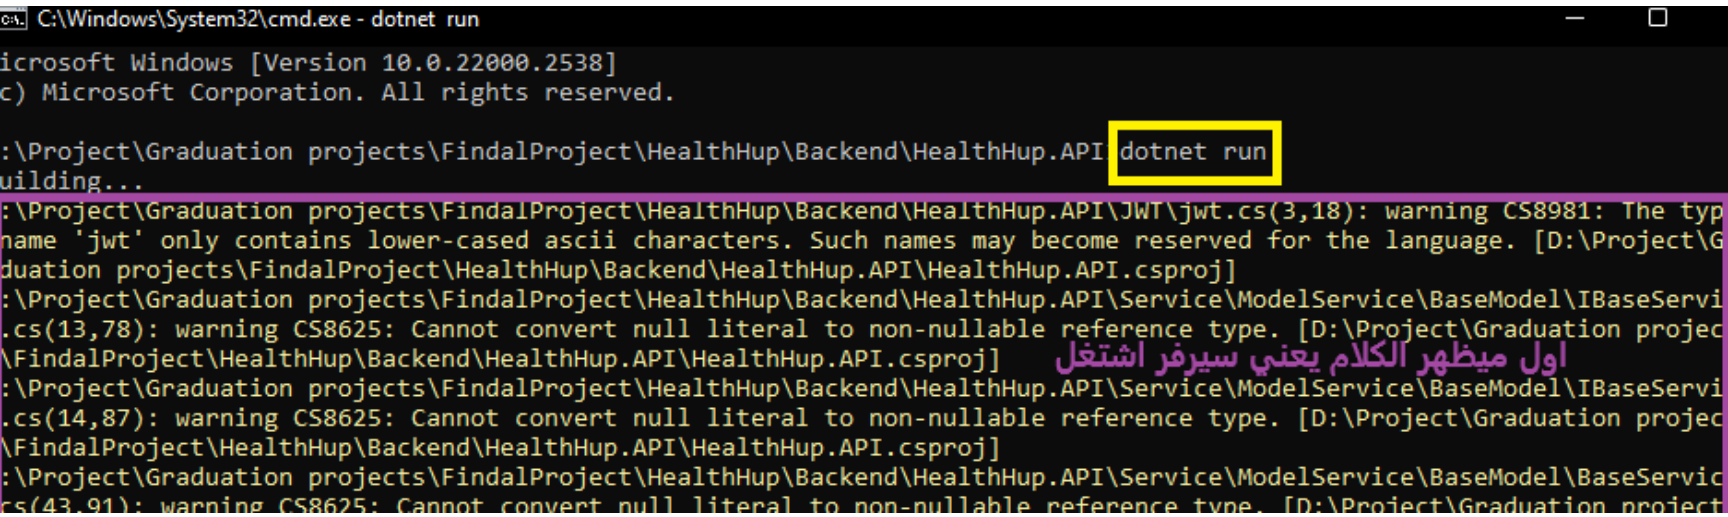

Server=ServerName;Initial  
Catalog=HealthHub;User  
ID=UserName;Password=Password;Truste  
d\_Connection=SSPI;Encrypt=false;TrustSer  
verCertificate=true

Run Server=>

Go to :Backend\HealthHup.API

dotnet run

Api Link: <http://localhost:5225>

Open Swagger To EndPoint : <http://localhost:5225/swagger/index.html>
